

# **Symposium on Novel Applications of Experimental Mechanics**

## **---In Honor of Professor Fu-Pen Chiang's Life Time Achievement on Experimental Mechanics**

**The 17th International Conference on Experimental Mechanics  
(ICEM 17) Rhodes, Greece. July 3-7, 2016.**

### **Symposium description:**

This symposium will serve as a forum for the recent advances in various experimental techniques for novel and challenging applications. The organized symposium is intended to be interdisciplinary and open to authors working in different fields with a common interest in experimental techniques. Papers including but not limited to the following topics are welcome:

1. Practical applications of experimental mechanics;
2. Applications of experimental mechanics in the new fields (nanotechnology, biomechanics, additive manufacturing, etc.);
3. Industry applications of experimental technology;

4. Infrared thermography measurement and evaluation;
5. Measurement and evaluation on novel materials;
6. Experimental techniques on Medical Engineering;
7. Research and development of new measurement system.

**The submission deadline for a two-page abstract is July 31, 2015. Instructions for preparing the abstract and guidance for abstract submission can be found at: <http://www.icem17.org/abstract-submission.html>**

Please send us a copy of your submission for the symposium to Prof. Yu-Lung Lo at [loyl@mail.ncku.edu.tw](mailto:loyl@mail.ncku.edu.tw). Also, please help distribute this information to your colleagues and encourage them to submit abstracts to this **Symposium on Novel Applications of Experimental Mechanics at ICEM 17**.

Thank you very much for your support and we look forward to seeing you at ICEM 17.
